The report from the county treasurer's office showed balances in the road funds of the county as follows:

Greenbank, \$3221.54  
Huntersville, \$877.77  
Levels, \$35.77 overdraft

J. W. Goodsell appeared and asked an appropriation for the Cheat Mountain road, \$400 appropriated, to be expended under the supervision of the road superintendent F. Sutton.

Mr. Simmons allowed \$600 on account for building the Bartow road.

Viewers appointed to report on right of way through lands of H. M. Moore, to report at next term of court: L. O. Beard, Roscoe Brown, Ellis Moore.

Report of viewers on the Cass and Gold Run road received. Repair of old road from Cass to Bower House estimated at \$500, which was ordered under supervision of H. L. Kesler. Viewers estimated road from Bower House to McLaughlin's at \$1800. Minority report of H. L. Kesler to retain most of the old road to the school house. Further survey ordered on road to school house.

Petition of Wesley Barlow and others for road near Red Lick Road superintendent directed to expend \$25 in opening up old right of way as a beginning of a road to Laurel Creek by this route. Elmer Baxter appeared in support of this enterprise.

Two bids were received for the construction of the change in the road near J. H. Bozzard's; the lowest being \$4500, which is considered rather high by the court. A large petition by James Harper and others was received asking for a bridge at this point, rather than build a road. The court visited the location Tuesday, and decided that the site was a very unfavorable one for a bridge, and no action was taken at this time, either towards a road or a bridge, as the condition of the finances of the district would not warrant a contract for a road in any thing like the amount of the bids.

A considerable number of road claims were audited and allowed Wednesday the members of the court visited the road work at the Price Hill, which was just being completed, and were very favorably impressed with the energy and success with which this work has been pushed by A. C. Barlow, ably assisted by J. H. Kramer and William Kramer, the latter in charge of the road roller. More than 750 loads of crushed stone have been applied in eight days past.

Next meeting of court July 21.

Parkersburg, June 24.—Thomas E. Hodges, President of the University, was nominate by the Democratic convention for Congressman-at-large on the first ballot. Depute withdrew and threw his strength to Hodges who defeated Beall, of Brooke.

Kelley marched from the Pacific ocean to see his army scattered by being kicked off the train by the sheriff of Pocahontas county in the dreary passes of Droop Mountain, at the very place that Averill fared the river fifty years ago with his army.

One of the biggest crowds ever seen in the county will be at Marlinton on the Fourth of July.

Good rains in the county this week. Hay and oats have been injured by the drought but wheat and corn look all right.

**ALL-DAY MEETING**

There will be an all-day open air meeting at Clover Lick next Sunday June 28th, conducted by Evangelist C. Arthur Bell and his noted children singers, and other workers. The public is cordially invited and those living at a distance are invited to bring their dinners and come to spend the day. There will be plenty of good singing and three sermons—11 a. m. and 3 and 7 p. m. This will make the services all in daylight. Mr. Bell is the noted street preacher and has held meetings at different places in our county, and at present he is holding interesting and successful meetings at Thornwood and Winterburn. His meetings are largely attended; many people who are not in the habit of going to church come to hear him.

Mr. Bell is doing home missionary work, traveling in a gospel wagon and his open air street meetings are very much like the Salvation Army. He and his workers will arrive in Cloverlick on Saturday and will hold a street service Saturday evening, at 7 o'clock. He will hold service at Marlinton, Monday afternoon and night.

Kelley's Army of the Unemployed, bumming their way from San Francisco to Washington, passed through town Saturday. There were fifty-one of them and they traveled on freight cars which they had taken possession of by force. At Grafton they were arrested for trespassing on the B. & O. R. V. road, but released upon promise to move on. At Elkins, the city authorities refused their request to enter the city and make speeches and beg, so they caught a freight train to Durbin. Here they spent Friday, and on Saturday came on to Marlinton, forcing the freight crew to let them ride. At Marlinton, Sheriff Cochran and a posse arrested them and escorted to Beard, where he forced them to leave the train, and marched them three miles to the Greenbrier county line. Here they camped until Monday, when they caught a freight into Roncoverte. The army started from San Francisco, several hundred strong, last winter. Kelley himself was arrested and is now serving a long sentence in a western work house. About one half the army which passed through Saturday came from California, the rest having been recruited on the way. The army was diverted down the Greenbrier by the strag vagrancy laws of the State of Maryland, where a sentence of a year in the work house awaited each one of them had they attempted to force rides on freight trains there as they did in West Virginia. They knew they were big and the law so far as the enforcement of our vagrancy law by any county was concerned. The army consisted of tramps, who never knew what an honest day's work was, and work is the last thing they wanted. At Cass, the whole lot could have had employment on the new line of railroad being pushed down Elk river. The two leaders were men of ordinary intelligence, but the rank and file were the ordinary train riding hobo type. What they expected to do at Washington they failed to make clear.

A powerful streak of lightning shot from the sky Tuesday evening stripping sparks in every direction and struck a locust tree near W. W. Burns' barn. A number of persons living in that part of the town were more or less shocked but no one suffered any serious injury. The houses near there seemed to be filled with fire and the telephones rang. Probably the nearest person to the tree was a brakeman in the caboose of a freight train which had stopped on the track about fifty feet from the tree. He came near falling from the train.

At Marlinton Methodist church Sunday June 28, at morning hour, Special message to old folks, Subject: "Rounding out one Life and Entering into Another." Evening hour, concluding message to young men: Subject: "The Young Man in Christian Service." Everybody invited to these services.

A dreadful rain, hail and thunderstorm passed over Marlinton Thursday morning between seven and eight o'clock.

Four of the lads ventured down into the low lands to attend the convention this week, risking the heavy, tainted air of the lower levels.
